WHAT IS A REPAIR CAFE?

A place where you bring your broken goods and work with volunteers to fix them for free.

There will be tools and materials to make repairs on clothes, furniture, electrical appliances, bicycles, crockery, appliances, toys, etc, depending on that day, location, and volunteers. More details will be announced prior to event. If we cannot repair the item we will try to refer you to local professionals.

The Repair Café was initiated by Martine Postma in the Netherlands. Since 2011, the Repair Café Foundation a non-profit organization, has provided professional support to local groups around the world wishing to start their own Repair Café.
